5. Member COMMENTS:
 - a) Penny Paws shot clinics are scheduled for June 19, July 17, and August 21.
 - b) Dr. Butler asked about future UCAH shot clinics. The shelter would be more than happy to hold future shot clinics; but Sheila Perez stated that the city would not want to cancel the Penny Paws clinics that have already been scheduled and we could hold a UCAH clinic in Sept/Oct timeframe. Dr. Butler would need to discuss future clinics with Dr. Gates.
 - c) Dr. Butler stated Saturday hours at UCAH are 8am till noon; surgeries for the shelter can now be scheduled for Tuesdays, Wednesdays and Thursdays. UCAH is only permitting curbside appointments and are not accepting new patients except for the pets adopted from the shelter. Adopters scheduling appointments at UCAH need to inform the staff that they have adopted the pet from our shelter.
 - d) Dr. Butler and staff discussed medications and dosages to treat a variety of worms in our shelter pets. Cestex is used to treat tapeworms only; and Drontal (which is more expensive) is used to treat roundworms, hookworms, and tapeworms. The 12.5mg dosage of Cestex is considered safe and can be used on pets up to 10 lbs. The whole tablet may be used to treat a kitten under 2 lbs.; however, to save on medication Dr. Butler said it is acceptable to half the pill (12.5mg) for the kittens under 2 lbs. Strongid is used to treat hookworms and roundworms.

- e) The shelter will hold another Bissell Clear the Shelter adoption event on July 7-10, 2021.
- f) Discuss any items to be placed on next agenda.
- g) The 3rd quarter Advisory Meeting has been scheduled for September 8, 2021, at 1:30pm.
- h) ADJOURNMENT: Meeting adjourned at approximately 2:30pm.
