Residential Plan Review – 14 – 21 business days
Commercial Plan Review – 21 – 45 business days

Plans are reviewed by Development Services, Fire, Public Works and Police, if applicable. You will be informed of the plan review status upon completion. If approved, you will be informed of procedures for permit issuance. If corrections are necessary, a set of plans will be returned specifying those corrections and the resubmittal process.

Permits cannot be processed until all contractors are registered with the city. Permit fees are collected at the time of permit issuance. Approved plans shall be made available on site during the construction project along with a copy of the approved permit.

A permit is authorization to proceed with work and shall not be construed as authority to violate, cancel, alter or disregard any of the provisions of the codes and ordinances of the City. Plan changes shall be approved by staff prior to modification of the project. Issuance of a permit shall not prevent the building official or any other reviewing official of the City from requiring at any time a correction of errors in the plans or during construction.

INSPECTION REQUIREMENTS:

Inspections must be requested by midnight the day prior through the automated inspection line at (210) 659-0333, Ext 444. Emergency inspections or situations where inspections are required in order to restore lost or abandoned service will be given first priority at the discretion of the department.
